Accommodation & Arrival

11

Dosing pumps & accessories

Stepper motor-driven diaphragm dosing pumps

■ 2.6 – 180 l/h up to 20 bar

Solenoid-driven diaphragm dosing pumps

■ 0.5 – 15 l/h up to 16 bar

Motor-driven diaphragm dosing pumps

■ 4 – 1020 l/h up to 16 bar

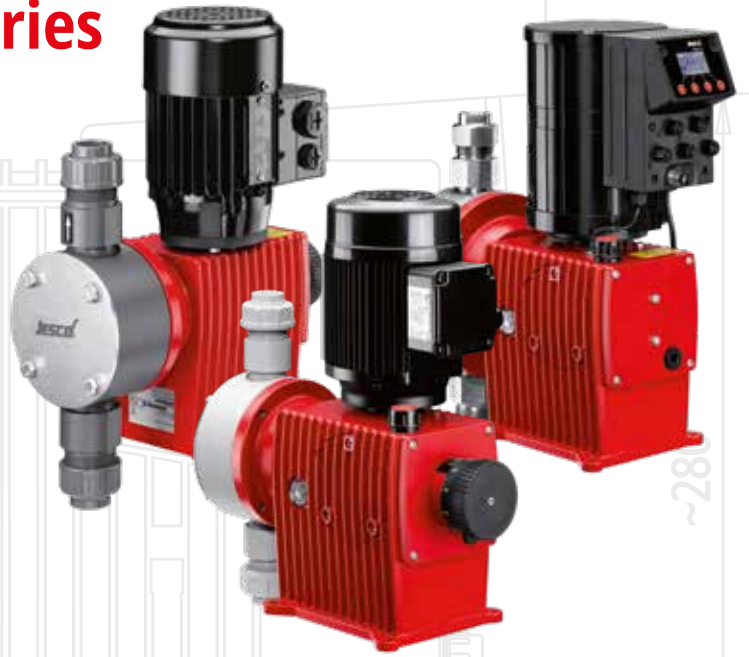

Motor-driven piston dosing pumps

■ 0.1 – 4100 l/h up to 400 bar

Motor piston diaphragm dosing pumps

■ 14 – 700 l/h up to 200 bar

■ 6.3 – 1536 l/h up to 25 bar

Chlorinators up to 200 kg/h

Chlorinators

- Chlorinators and vacuum regulators
- Chlorine evaporator
- Flow meter
- Regulation valves
- Changeover switch
- Ejectors / Non-return valves

Accessories

- Auxilliary valves
- Manifolds
- Moisture eliminator
- Expansion systems
- Diffuser
- Filters for chlorine gas
- Injection nozzles for chlorine gas
- Safety blowoff valves
- Safety shutoff valves

Room and protective equipment

- Gas warning devices
- Pressure safety shutoff valves
- Crane cross beams / crane scales
- Drum scales / drum supports
- Chlorine scrubber
- Valve closing systems

With their matching components, from chlorine gas dosing to analysis and warning devices, Lutz-Jesco chlorine gas systems meet all modern system requirements. They are distinguished by their reliability and repeated dosing accuracy.

Measurement and control technology

TOPAX® - Single and multi-channel controller

Water sampling stations for:

- Drinking water
- Bath water
- Industrial applications

Gas warning devices for:

- Chlorine gas
- Chlorine dioxide
- Ozone

Sensors

- Optical measuring cells: turbidity, dissolved oxygen
- Amperometric measuring cells for disinfection measurement
- Membrane-covered measuring cells
- Conductivity measuring cells
- pH/redox single-rod measuring cells
- Temperature sensors
- Gas sensors

Software

- TopView - For creating measurement reports
- TopReader - For analysing trend data

Accessories

- Buffer solutions, fittings, photometers

Disinfection systems

Chlorine dioxide systems

- EASYZON 5 (diluted solution)
- EASYZON D (diluted solution)
- EASYZON L/M/H (diluted solution)
- EASYZON C (concentrated solution)

Sodium hypochlorite systems

- EASYCHLORGEN/EASYCHLORGEN T
- MINICHLORGEN/MINICHLORGEN T

Calcium hypochlorite systems

- EASYCHLORMIX
- SAFETYCHLORMIX

Flow-trough chlorine electrolysis systems

- TECHNOMAT (private)
- TECHNOSTAR (commercial)

General Information

Dates by agreement

Please send seminar enquiries by e-mail to the following address below.

service@lutz-jesco.com

Participants

To guarantee intensive training for individual seminar participants, the number of participants is limited to a maximum of 8 people.

Venue:

Lutz-Jesco GmbH, Am Kreuzeck 10, DE-97877 Wertheim

Hotel

We are happy to make a hotel reservation for you. Please specify your preferences on the registration form. Please settle the bill directly with the hotel.

Costs

The seminar fee is 389.00 euros per person. These include drinks, lunch and training documentation.

Target groups

Technical personnel, service engineers, customer service, water technicians

Duration of the event

A one-day seminar starts at 09:00 AM and ends at 04:00 PM.

IMPORTANT

All seminars listed here are held in English language.

Dosing technology seminar

You will learn about the technical fundamentals of dosing technology and the correct installation and maintenance procedures. Save on costs with an in-house service and product support capabilities.

Topics: Theory and practice

- Dosing technology basics
- Operation of dosing pumps
- Accessories for the plant installation
- Maintenance of dosing pumps

Chlorine gas dosing seminar

This seminar trains you how to carry out maintenance and checks on Jesco chlorine gas units. You will learn everything there is to know about installing and operating chlorinators as well as the applicable regulations.

Topics: Theory and practice

- Chlorine handling
- Structure and safety regulations for chlorine gas rooms
- Construction of chlorinators
- Operating Lutz-Jesco chlorine gas units
- Operating gas warning devices and accessories

Disinfection seminar

You will learn the technical basics of disinfection technology and the correct selection and installation of disinfection systems.

Topics: Theory and practice

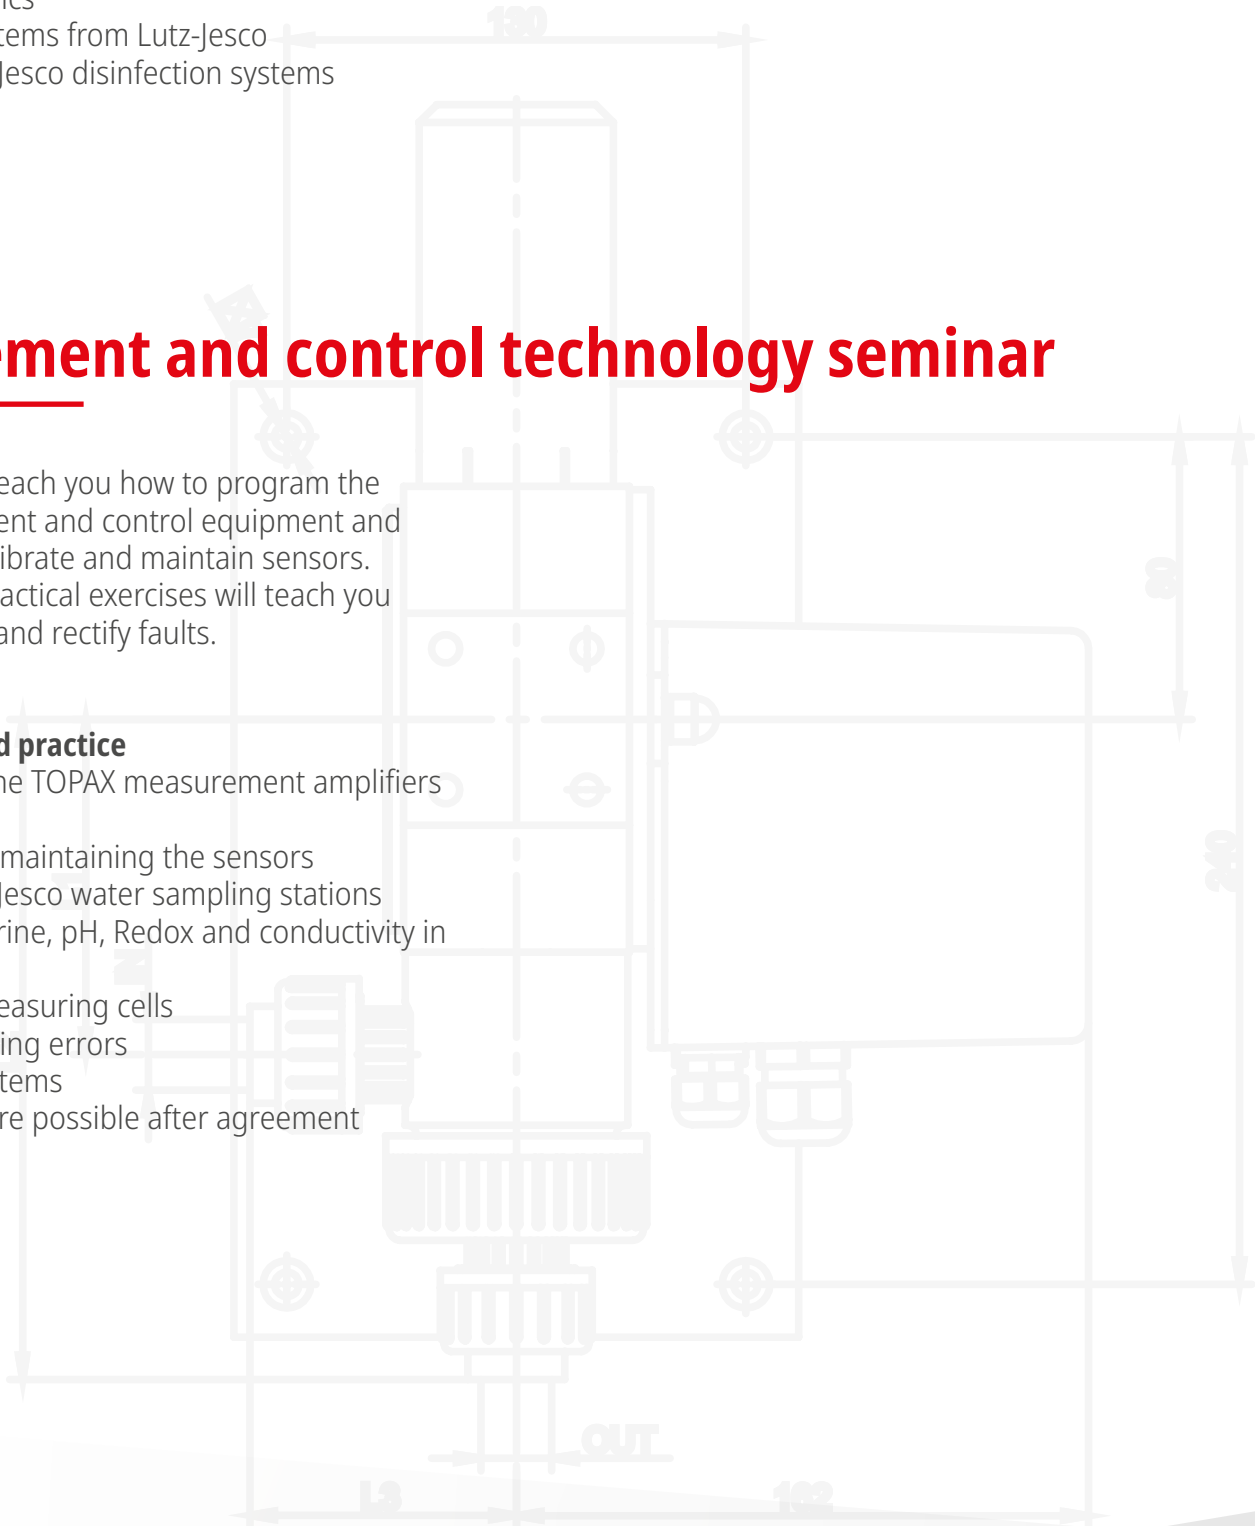

- Disinfection basics
- Disinfection systems from Lutz-Jesco
- Operating Lutz-Jesco disinfection systems

Measurement and control technology seminar

This seminar will teach you how to program the TOPAX measurement and control equipment and how to handle, calibrate and maintain sensors. Theoretical and practical exercises will teach you how to recognise and rectify faults.

Topics: Theory and practice

- Programming the TOPAX measurement amplifiers and controllers
- Calibrating and maintaining the sensors
- Operating Lutz-Jesco water sampling stations
- Measuring chlorine, pH, Redox and conductivity in water
- Handling the measuring cells
- Avoiding operating errors
- Examples of systems
- Further topics are possible after agreement

Hotel recommendations in Wertheim

Hotel Wertheimer Stuben

Rechte Tauberstraße 2
97877 Wertheim

Phone: +49 9342 9357270
info@wertheimer-stuben.de
